INJURED RESIDENTS TAKEN TO HOSPITAL.

Guardians of Peace Say More Persons Are Hurt in Summer Than During Winter.

Police records include reports of a numper of accidents yesterday, but in no case was any one fatally injured. It is said by the police that the number of accidents in hot weather usually outnumber those during the winter months.

The Union station grade damage commission, composed of Charles A. Baker, George W. Moss and George Spransy, yesterday finished hearing testimony and heard "summing-up" arguments as to the damages alleged to have resulted from changes of street grades to the real estate on the south side of E street northwest between North Capitol street and New Jersey avenue.

The case was argued on behalf of the property owners by Attorneys George Francis Williams, George C. Gertman and Charles C. Lancaster, and for the government by A. Leftwich Sinclair, special attorney for the District. The commission took the case under advisement, announcing that its appraise-

ment would be returned to the court within the next few days. The next real estate to be considered by the commission will be that on the west side of Delaware avenue between C and D streets northeast. The commission will view this property July 1 at 4 o'clock p.m., and will meet at the city hall the following day at 10:30 a.m. and commence which have resulted to the property from the "filling in" of Delaware avenue.
